## Utility News

**Code Enforcement** ☞ The placement of leaves, grass, and other yard trimmings and debris in the street makes traveling city streets hazardous for operators of vehicles and motorcycles. A DOT study found that a vehicle traveling 40 mph took 80 feet to stop on wet pavement. The same vehicle took 160 feet to stop, and on wet grass and leaves, it took 250 feet to stop. The combination of wet grass and leaves was found to be like driving on ice. For motorcycle operators, the placement of grass and leaves in the street can cause the motorcycle tires to lose contact with the road surface, which could result in an accident. In the interest of public safety, the city has adopted Ordinance 2021-12, which prohibits yard trimmings and debris from being left on a public street. Information about this ordinance and others can be found at [socialcirclega.gov/government/ordinances-and-zoning/](https://socialcirclega.gov/government/ordinances-and-zoning/).
