Watch out for meter boxes!

The City has experienced damage to several water meter boxes and lids due to people driving over them. This can cause water leaks on both the residential and City side of the meters and lead to high water usage and higher bills that the utility customer is responsible for paying. So please, watch out for meter boxes!

Help prevent damage to City's leaf vacuum truck

The City's leaf vacuum truck picks up yard debris enabling the City's street department to be more efficient. Please help City workers by NOT putting large limbs or metal pieces in with yard debris as it can damage equipment. Leaves, grass clippings, and pine straw are acceptable. Customers do not need to bag leaves. Here are some tips to make the process easier:

- Rake leaves to the curb or road
- Make piles no higher than 3 feet and 6 feet in diameter
- Place piles horizontally along the curb for timelier and easier pickup by city crews.
- Limbs should be cut to no more than 7

feet in length

- Bagged leaves will be picked up and transported to the City's leaf drop off area.

A load is about 8 feet by 8 feet by 4 feet.
