### G. Streets and Rights of Way

1. All streets shall be dedicated public streets, except as may be permitted in an Overlay District or Tier 2, and shall conform to standards of Issuing Authority regulations.
2. Streets that are not state or federal highways shall be constructed with a design speed not to exceed thirty-five (35) miles per hour in commercial and industrial areas and twenty-five (25) miles per hour in residential areas, except as follows:
  - a. Streets primarily serving industrial, commercial, and office buildings shall provide vehicle travel lanes not to exceed twelve (12) feet in width, not including on-street parking and bicycle lanes.
  - b. Intersection radii shall not be greater than thirty-five (35) feet.
  - c. Streets containing four (4) or more travel lanes shall provide landscape medians of at least fourteen (14) feet in width.
  - d. All intersections shall provide pedestrian crosswalks.
  - e. Where intersections are signalized, they shall provide signal phases and indicators for pedestrians in accordance with the Manual of Uniform Traffic Control Devices.
3. Landscape plans shall be prepared as a component of the final engineering plans for each public street. Street trees shall be permitted in accordance with approved landscape plans.
4. Right-of-way widths shall generally be in accordance with standards of Issuing Authority's requirements and shall provide adequate space for:
  - a. Shoulders on both sides of travel lanes containing a minimum of ten (10) feet measured from the outside edge of pavement for the placement of underground utilities, sidewalks, bike lanes, and landscaping as required by the approved site development plans of the applicable overlay districts.
  - b. Alternative right-of-way widths and shoulder widths shall be permitted in an Overlay District in accordance with approved preliminary plans.

## 5. Deceleration

A deceleration lane shall be installed at all entrance roads into a commercial or industrial development.

Deceleration lane length is measured 200 feet from intersection centerline to beginning of taper. Tapers are 50 feet.

An exception to this requirement may be approved by the City, or its designee, based on the results of a traffic study that demonstrates that a deceleration lane is not required due to the specific conditions and level of service of the County road.

The City, or its designee, may require a traffic study to determine if the project's size warrants a center turn lane, longer deceleration lane, an acceleration lane or other improvements. If the traffic study determines that further steps should be taken to protect the traveling public, the additional requirements will be imposed by the City, or its designee,.

## H. Sidewalks

1. Sidewalks shall provide safe, continuous pathways for pedestrians.
2. Continuous and connected sidewalks shall be located on all public streets.

## I. Landscape Strips Adjacent to Public Rights-of-Way

1. All unimproved areas, unless to the rear of a lot either for future expansion or part of a natural area, shall be landscaped with a combination of deciduous canopy trees, shrubbery and ground cover. For each fifty (50) feet of street frontage, at least one tree, at least six (6) feet in height, shall be planted in the setback area. All off-street parking areas that serve twenty (20) vehicles or more shall be provided with landscape areas totaling not less than five (5) percent of the surfaced area. Landscaped earth berms are required to block direct view of storage areas, the side yard trucking doors and trucking courts and as a part of the overall landscaping plan.
2. All landscaping shall be completed before the final Certificate of Occupancy is issued. Notwithstanding the preceding sentence, in the event this is not feasible, landscaping shall commence at and be completed within the next growing season provided a bond covering the cost of the required landscaping is tendered to and approved by the local issuing authority.

## J. Utilities

1. All utilities shall be placed underground except for major electric transmission lines and sub-stations.
2. Public water and sewer service shall be provided for all occupied buildings required to provide toilets.
3. Streetlights shall be provided along all public streets.

## K. Signage

1. Signs shall be incorporated into the landscape plan. Maximum overall size shall not exceed six (6) feet in height or fifty (50) square feet in area for one side.
2. Sign locations shall be governed by setback requirements.
3. Signs will be ground mounted signage structures of complimentary building materials (brick or concrete marquee), no higher than six (6) feet in height and twenty (20) feet in length, on which signage can be mounted, landscaped and ground mounted illumination of signage.
4. No flashing, flickering or blinking illumination shall be permitted in any sign.
5. No animated or moving light forms of illumination will be permitted on any sign.
6. All signs shall be fabricated and installed in compliance with all applicable building and electrical codes.
7. All signs shall otherwise comply with the requirements of the applicable zoning regulations without variance unless approved by the local issuing authority.

## L. Building Standards

### 1. Building Materials

- a. Exterior walls for all new buildings shall consist of durable, permanent architectural materials that are compatible with park-like standards. The front façade and street side facades shall incorporate one or a combination of the following durable materials: brick; tile; stone with weathered, polished or fluted face; textured cement stucco; architectural concrete masonry with fluted, split-face, or broke-face finish; Portland cement plaster and lath systems; architectural (either pre-cast or tilt -up) concrete either fluted or with exposed aggregate finish or glass. Front façade materials shall be continued for not less than twenty (20) feet on each side from the front surface. Unfaced concrete block, structural concrete, corrugated metal and the like shall not be permitted. Pole buildings or similar structures will not be permitted.

All building exteriors which face a public street shall have consistent architectural features, building materials, and rooflines as the front. Elevations of all four sides of the building shall be part of the building permit application.

The sides and rear of all buildings shall be finished in keeping with the accepted standards used for first-class industrial development.

- b. For gas stations support pillars for pump station canopies shall be covered with similar durable materials as required by subsection a. The sides of the pump island canopy shall reflect the color and building materials of the primary building. Pump island canopy lighting fixtures shall be completely recessed into the canopy and shall be shielded such that the lamp source is not visible and glare is not created. No lighting shall be permissible on top or on the side of the pump island canopy.
2. Building Roofs: Building roofs shall be white or earth-tone color, if architectural in function/design and visible from street view.
3. HVAC and Miscellaneous Equipment: If visible from a road parcel or any public road, cooling towers, rooftop and ground mounted mechanical and electrical units and other miscellaneous equipment shall either be integrated into the design of the building or screened from public view (landscaping screening is permitted).
4. Refuse areas and receptacles shall be placed in an accessible location in the corner farthest from any public streets and shall be enclosed on three sides with decorative masonry walls. The fourth side shall be a self-closing opaque gate made from non-combustible materials. The walls and gate shall be a minimum of 12 inches higher than the receptacle

**Sec. 914.7 NOTICE TO JOINT DEVELOPMENT AUTHORITY OF JASPER COUNTY, MORGAN COUNTY, NEWTON COUNTY AND WALTON COUNTY**

Within 3-days of receipt of an application relating to zoning, use or building activities in the Stanton Springs Business Park District, the County shall provide a copy of any such application to the JDA by mailing a copy to the address so designated by the Authority and kept on file at the County. The JDA may provide comments and recommendations in writing to the Planning Director. If the application is for a re-zoning or conditional use permit, the JDA's comments shall be provided at or prior to the Planning Commission meeting. If the application is for a building permit or other permit which does not require a public hearing, the JDA's comments must be provided within 10-days of receipt of a copy of the application.”

**SECTION 2.** Pursuant to the Section 2.25 of the City Charter, authority is hereby delegated to the City Clerk to cause this Ordinance to be numbered and codified in the City Code of Social Circle, Georgia, in such a way as to place this Ordinance in the Code in an organized and orderly sequence to maximize the organization of the Code. The City Clerk is authorized to designate to the City Attorney or to such other Mayor and Council approved contractors to assist in the effort to codify this provision provided the decision of the City Clerk is final as to the placement of this Ordinance within the City Zoning Ordinance of Social Circle, Georgia. The goal of this authorization is to codify and number this Ordinance in the Code in such a way as to be clear and orderly.

**SECTION 3.** This ordinance shall become effective immediately upon its adoption by the Mayor and Council of the City of Social Circle, Georgia.

**SECTION 4.** It is hereby declared that if any phrase, sentence, or paragraph hereof shall be found or declared unconstitutional or invalid by a court of competent jurisdiction, the remaining phrases, sentences and paragraphs hereof shall remain in full force and effect as if enacted without the phrase, sentence, or paragraph declared unconstitutional or invalid.
